## Expansion of Family Medical Leave Act for Military Families

President Bush recently signed the National Defense Authorization Act, which became effective immediately, and implemented two new types of Family Medical Leave:

### 1) Leave to care for wounded service member

This grants up to twenty-six (26) weeks of leave in a single 12-month period for an employee to care for a family member who sustains a serious injury or illness in the line of duty while on active duty in the U.S. Armed Forces. This leave is combined with all other FMLA leaves in that period, resulting in a maximum total leave of 26 weeks.

### 2) Leave related to "qualifying exigency" arising from active duty or call to duty

This allows an employee up to twelve (12) weeks of leave in a 12-month period to deal with certain needs that arise from a family member's active duty, or call to active duty, in the U.S. Armed Forces in support of a contingency operation. This leave is combined with all other FMLA leaves in that period, resulting in a maximum total leave of 12 weeks.

The California State University will treat domestic partners in the same manner as spouses; therefore, will extend these leave provisions to an employee who is the registered domestic partner of a covered service member. Written documentation to certify the need for these leaves must be provided. As with all FMLA leaves, employees are required to exhaust the appropriate leave credits applicable to his/her employee category prior to beginning unpaid FMLA leave. For more information, contact Kathy Constantine in Human Resources at ext. 6-6571.
